which he had been empowered to entertain an establishment at a cost not exceeding Rs 30/- per mensem. The Circumstance under which the additional establishment of three measurers was found necessary has been explained by him in his letter No. R.H.C. 315 of

18-19 dated 28th June 1919 copy of which is herein enclosed for reference.

Copy of letter No. F.C. 10/19-20 dated 22nd November 1919 subsequently received from him on the same subject is also enclosed for information. I request that in the circumstances explained by him the appointment of the three additional measurers on a pay of Rs 10/- each per mensem may be kindly sanctioned as a special case.

Sir,

Your most obedient servant, *

Food Controller and Director

of Civil Supplies in Mysore.

Letter No. R.H.C. 315 of 18-19 dated 28th June 1919 from the Deputy Commissioner Kolar District to the Food Controller and Director of Civil Supplies in Mysore.

I have the honor to state that I visited the rice Depot at Kolar on the 2nd and 6th instant. Only one measurer and one Gumasta were employed. The Depot itself was located in the Bazaar street in a small shop which had a little verandah with a flight of steps connecting it with the road. The people who wanted rice occupied the whole verandah and the flight of steps and used to completely block up the passage, so that no person could get entrance into the shop or get out of it, the shop itself being quite dark. Naturally the sales were greatly interfered with and there were complaints that people had to wait for hours together to get 4 to 8 annas rice and thus lose a day's labour. Women and children and old people were absolutely helpless.

With a view to the better working of the Depot I arranged to have the sales conducted in the spacious outer verandah of the Taluk Office. More efficient Police arrangements were also ordered. As one measurer was found to be absolutely inefficient I ordered the employment of four measurers and was watching how the new arrangement would work, which commenced on the 7th instant.

3. I again visited the Depot on the 23rd instant and found the arrangement was working satisfactorily. Three measures were found to be quite sufficient. Accordingly I ordered the services of the fourth measurer to be dispensed with from the next day. If on shandy days more measurers were required the Amildar would

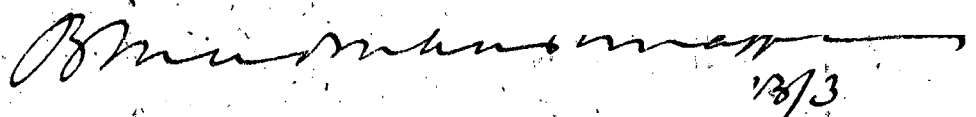

Letter No. F.C. 10/19-20 dated 22nd November ~~November~~ 1919 from the Deputy Commissioner Kolar District to the Food Controller and Director of Civil Supplies in Mysore.

With reference to your letter No. 5326 dated the 5th September 1919 re: some discrepancy in the Taluk Grain Depot Establishments at Kolar and Sidlaghatta, I have the honor to state as follows:---

(1) Kolar Depot :--- During June 1919 one measurer on Rs 10/- worked from 1st to 30th. On the 7th idem three additional measurers were employed on Rs 10/- each and on the 26th one of them was discontinued, so that in July there were three measurers on Rs 10/- each. Since 1st August 1919 only two measurers on Rs 10/- each are working. This establishment is found sufficient.

(2) With regard to Sidlaghatta no additional establishment is now necessary.
